A LADY'S INVENTION GREAT BEVOLUTION IN

HAIR DRESSING.

THE FLEXIBLE Hair Curlers

and Crimpers

WILL curi or wave any hair without the use of the hot curling irons or injurious chemical compounds. The principle upon which they operate is pressure, which all will readily admit is preferable to the old method of heat.

They are very simple, can be used by a child, are neat in appearance when in use, and from their flexible construction will be found superior to any other article for comfort.

By the use of these articles a more natural effect is produced than by host. Heat makes stiff, stubborn, unnatural forms, destroys the liquid, which is the life of the hair, dimming its lustre, and eventually producing a harsh, wiry appearance. THE FLEXIBLE HAIR CURLERS and CRIMP THE FLEXIBLE HAIR CURLERS and CRIMP-ERS form soft, careless, graceful carls and waves, which are therefore more natural. These articles are warranted to give perfect satisfaction, or the money refunded. Sent to any address upon receipt of price. Money sent at my risk.

1 box, containing 12—2 inches long, 50 cents.

1 " 12—4 " 15.00"

In ordering, mention which you want—CURLERS or CRIMPERS—as both are made in three sizes, and both are of at the same prices. Liberal terms to Agents and Dealers.

HAVING had an experience of three years in insurance, I can safely promise the insuring public that business intrusted to me will be correctly managed. I am agent for several first class companies, a list of which I append. Of these, the Amdes of Cincinnstf, though a young company, has already achieved a marvelous success, having accumulated in eleven months a surplus over ALL liabilities of \$160,000. The Agricultural, for insuring farm property and dwellings, stands unrivaled, its stock being worth more in market than that of ANY company in its native state, and exceeded in value by that of but TWO companies in this country. The following is a list of companies represented, with their assets:
