GREAT REVOLUTION IN

North Cansan, July 14th, 1871.

Hair Curlers

HAIR DRESSING. THE FLEXIBLE

and Crimpers WILL curl or wave any hair without the use of the hot curling irons or injurious chemical compounds. The principle upon which they operate is pressure, which all will readily admit is preferable to the old method of heat.

They are very simple, can be used by a child, are neat in appearance when in use, and from their flexible construction will be found superior to any other article for comfort.

By the use of these articles a more natural effect is produced than by heat. Heat makes stiff, stubborn, unnatural forms, destroys the liquid, which is the life of the hair, dimming its instre, and eventually producing a harsh, wire appearance.

THE FLEXIBLE HAIR CURLERS and CRIMPERS form soft, carelees, graceful curls and waves.

ERS form soft, careless, graceful curls and waves which are therefore more natural. These article are warranted to give perfect satisfaction, or the money refunded. Sent to any address upon receip of price. Money sent at my risk.

1 box, containing 12—2 luches long, 50 cents.
